

Appl. No. 10/743,588  
Amdt. dated September 8, 2005  
Reply to Office Action of August 29, 2005

**REMARKS**

Entrance of the present amendment in the application is requested since it removes the inconsistencies between the specification and the drawings and the amendatory matter is fully supported by the application as filed.

In the BRIEF DESCRIPTION OF THE DRAWINGS, a new paragraph [008A] describing Fig. 2 has been added and paragraphs [009], [010] and [011] have been amended to describe Figs. 3, 4 and 5 respectively. These changes are fully supported by the application as filed and remove the inconsistencies between the drawings and the specification.

Fig. 2 is described in paragraph [013] as "... a representational cross section of one of the grooves 14 formed on the surface 12 of drive roller 10."

Fig. 3 is described in paragraph [014] as "... a drive roller assembly 28 showing drive roller 10 (Fig 1) in conjunction with a pair of pressure rollers 30, 32."

Fig. 4 is described in paragraph [014] as "...a perspective drawing of another drive roller assembly 36,..."

Fig. 5 is described in paragraph [014] as "...a representational end view of drive roller assembly 36..."

The amendments remove the inconsistencies between the drawings and the specification. The amendments are fully supported by the application as filed and do not include any objectionable new matter.

Appl. No. 10/743,588  
Amdt. dated September 8, 2005  
Reply to Office Action of August 29, 2005

It is respectfully requested that the amendment be entered in the application and the application be passed to issue.

Respectfully submitted,
